Objective

Dedicated **Computer Science Undergraduate & Full-Stack Developer** with proven hands-on experience building scalable web applications, real-time communication systems, and local LLM/AI integrations. Experienced across three technical internships with strong foundations in Data Structures, Algorithms, RESTful API architecture, and modern JavaScript/Python ecosystems.

Education

Bachelor of Technology / Computer Science and Engineering

July 2023 – August 2027 (Expected)

Gauhati University, Guwahati, India

- **Relevant Coursework:** Data Structures & Algorithms, DAA, COA, DBMS, Operating Systems, Computer Networks, OOP, AI/ML, NLP, Theory of Computation (TOC), Nature Inspired Computing (NIC), Brain-Computer Interface (BCI), Web Technologies.
- **Honors:** Merit-Based Scholarship Awarded at Admission for Academic Excellence.

Skills

Python

JavaScript (ES6+)

C++

React.js

Node.js

Express.js

FastAPI

MongoDB

MySQL

HTML5

CSS3

WebRTC

Socket.io

Local LLMs (Ollama / Qwen 2.5)

Faster-Whisper

Cybersecurity Fundamentals

Git / GitHub

REST APIs

Featured Projects

AI Meeting Summarizer & Action Item Extractor

Python, FastAPI, Faster-Whisper, Ollama, React

- Architected a privacy-focused local meeting assistant that transcribes multi-speaker audio recordings and extracts structured minutes and action items with zero cloud API costs.
- Integrated faster-whisper for accelerated speech-to-text and Qwen 2.5 via Ollama with a streaming FastAPI backend and responsive React dashboard.

ShopNext — Full-Stack MERN E-Commerce Platform

React, Node.js, Express, MongoDB, Redux Toolkit

- Engineered a full-stack e-commerce web platform featuring secure JWT authentication, role-based access control, dynamic product catalog filtering, and order management.
- Implemented global state management with Redux Toolkit for real-time persistent cart synchronization and seamless checkout workflows.

WebRTC Peer-to-Peer Real-Time Video Platform

JavaScript (ES6+), WebRTC, Socket.io, Node.js

- Developed a low-latency real-time video conferencing application enabling direct peer-to-peer audio/video streaming and live chat with Socket.io signaling architecture.

Relevant Experience

Full-Stack Developer Intern — *The Entrepreneurship Network (TEN)*

April 2026 – July 2026

- Developed responsive user interfaces with React.js and integrated secure RESTful endpoints with Node.js/Express for asynchronous data handling.
- Collaborated in an agile team workflow with Git; awarded **Letter of Completion (LOC)** and **Letter of Recommendation (LOR)**.

Summer Internship — *Directorate of Forensic Science, Assam (Cyber Division)*

June 2025 – July 2025

- Learned digital data extraction techniques and developed a frontend web tool for internal investigators to standardize evidence entry and report generation.
- Gained hands-on exposure to digital forensic workflows, storage media analysis, and cyber division protocols.

In-house Summer Internship — *NIPER (National Institute of Pharmaceutical Education & Research)*

June 2024 – July 2024

- Developed Python automation scripts for data preprocessing and computational analysis; explored AWS cloud and cybersecurity fundamentals.

Certifications & Training

- **Artificial Intelligence Specialization (270 Hours)** — Reliance Foundation Skilling Academy & NSDC (Nov 2025)
- **Cyber Forensics Internship Certificate** — Directorate of Forensic Science, Assam (Jul 2025)
- **Full-Stack Web Development Bootcamp** — Angela Yu, Udemy (In Progress)
